

Hi, my name is Mateusz Janowski

I'm open minded, all-round software developer, with main focus on
`Next.js, React, Node.js, TypeScript, GraphQL, Express, MongoDB.`

I have co-started `iMagok sp. z o.o.` on my mission to integrate
Automation and Robotics into the IT world.

MJanowskiDev

Projects

01

Loose-MES
Application

02

Instrument-
DIAG
Application

03

Wireless control
of pumping
station

04

Electrical motor
diagnostics
application

05

Cartesian
palletization
system

06

Pillow
production line

07

Extraction center
control system

08

Robotic
welding system

09

Robotic
palletization

10

Pillow
production line
monitoring

11

Robotic
painting

12

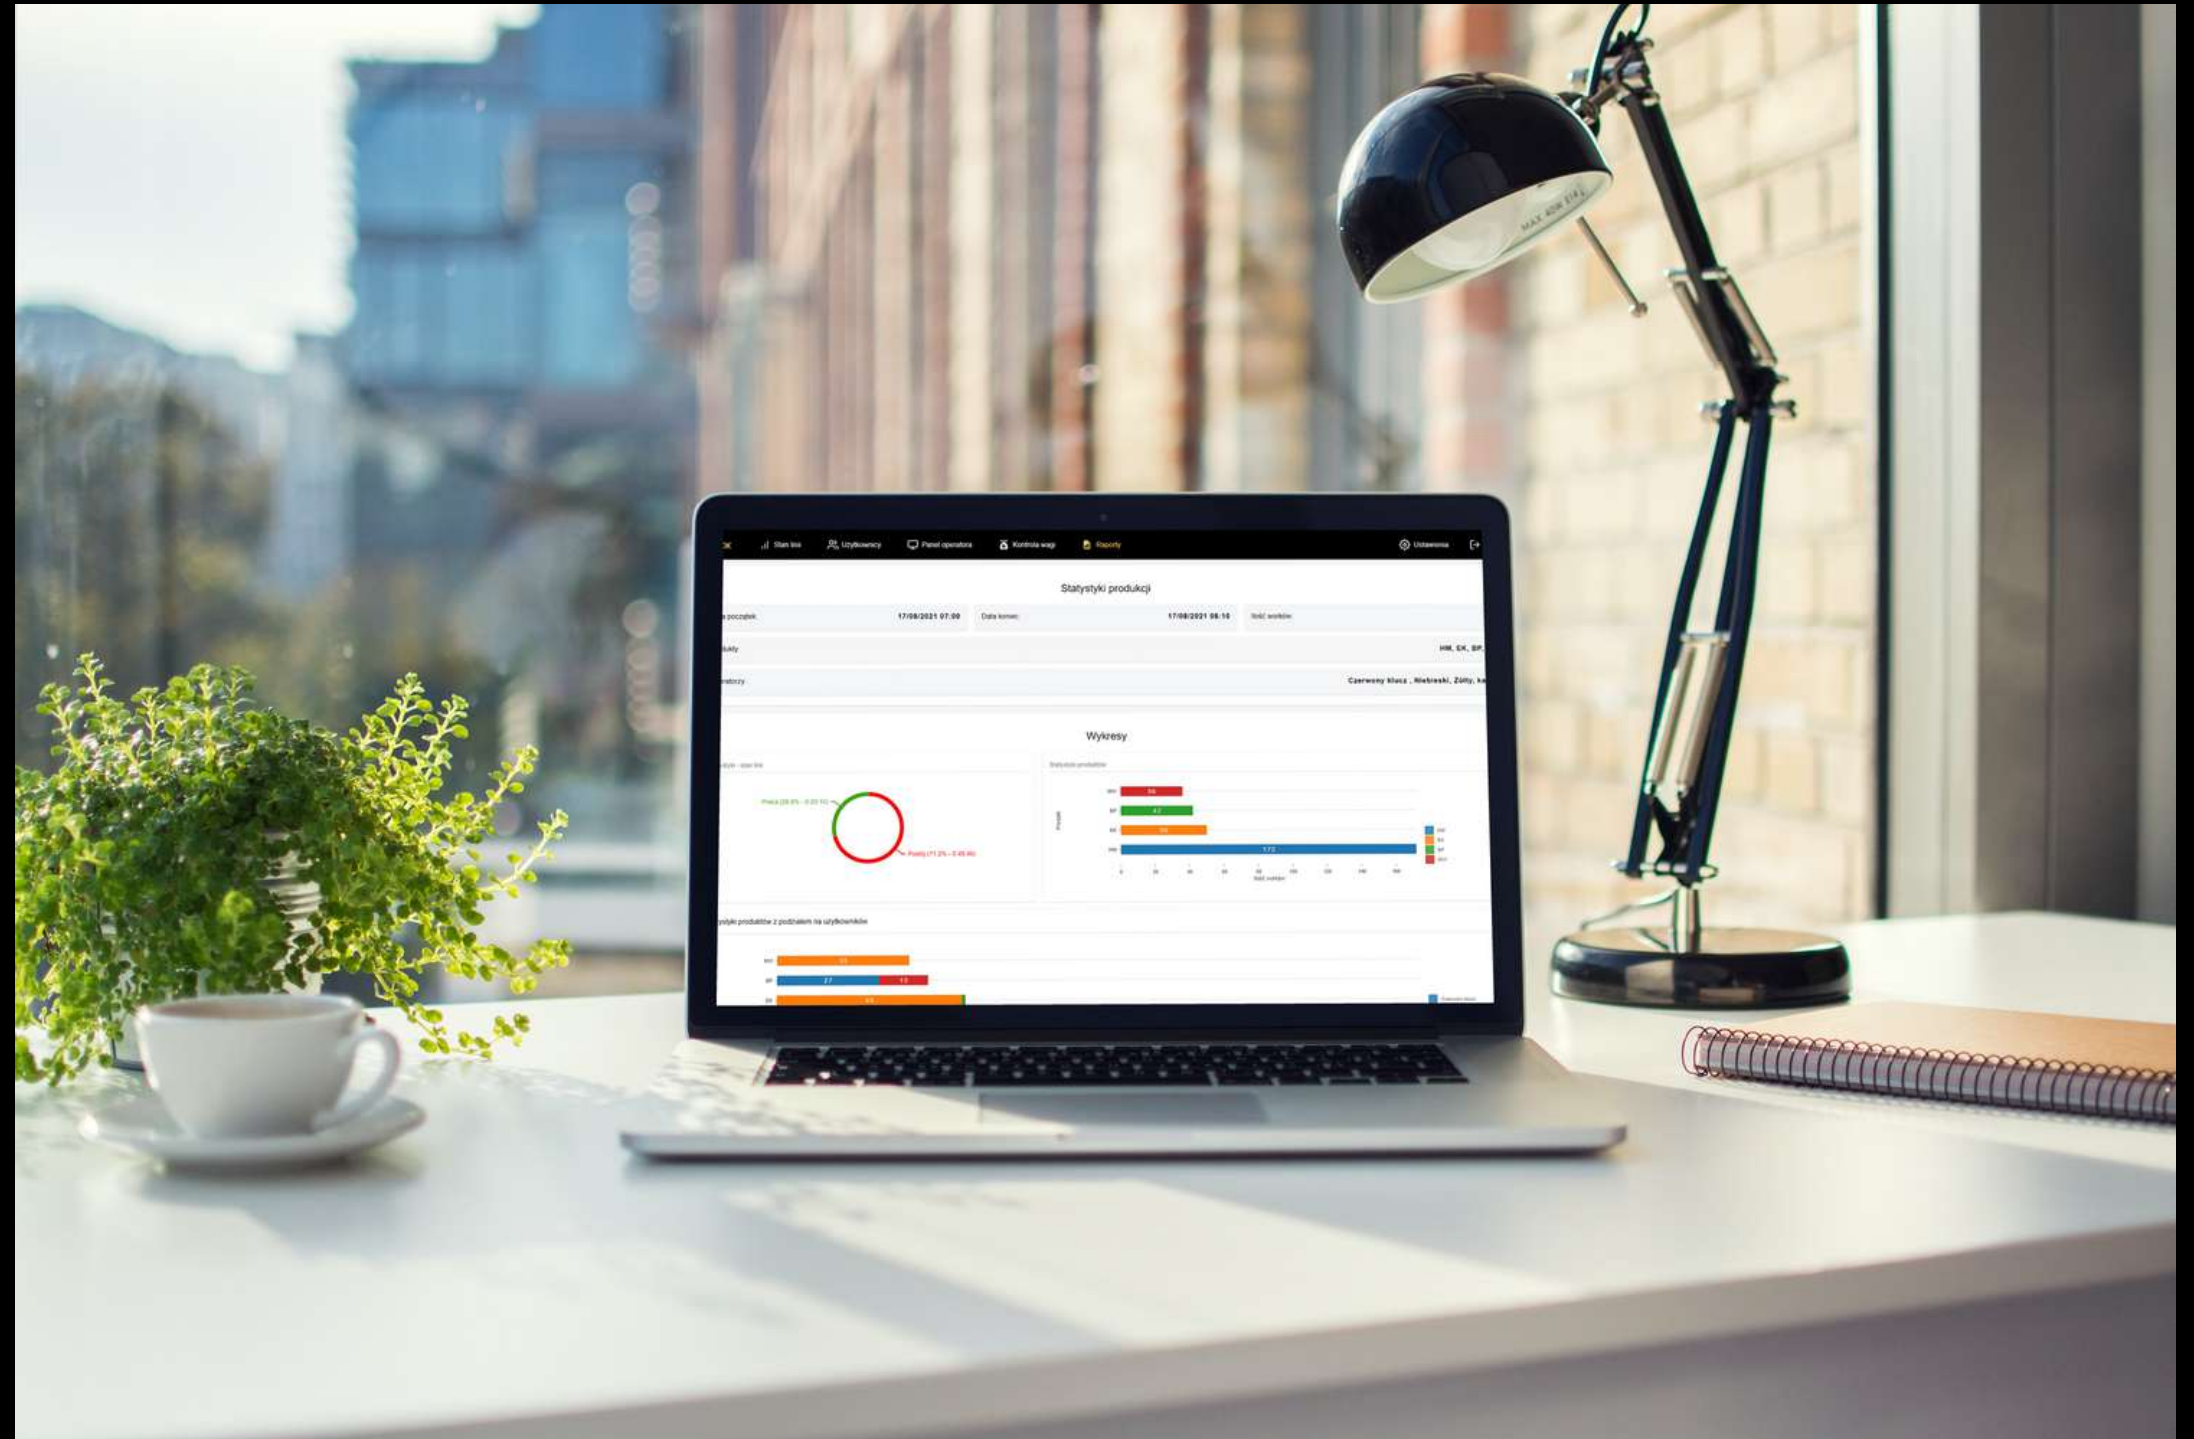

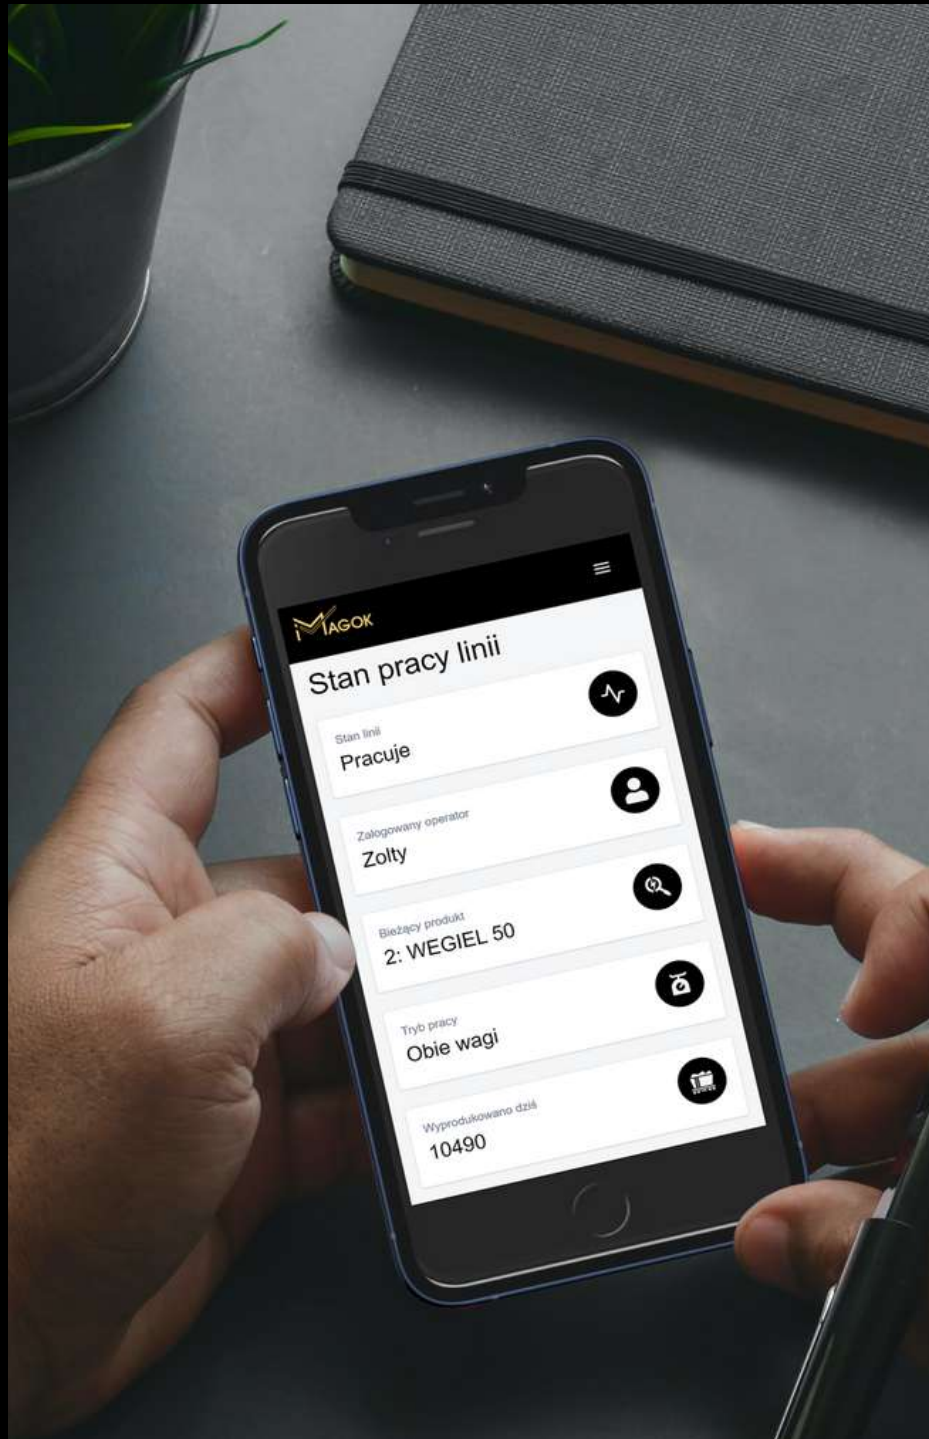

Robot Digital
Twin

13

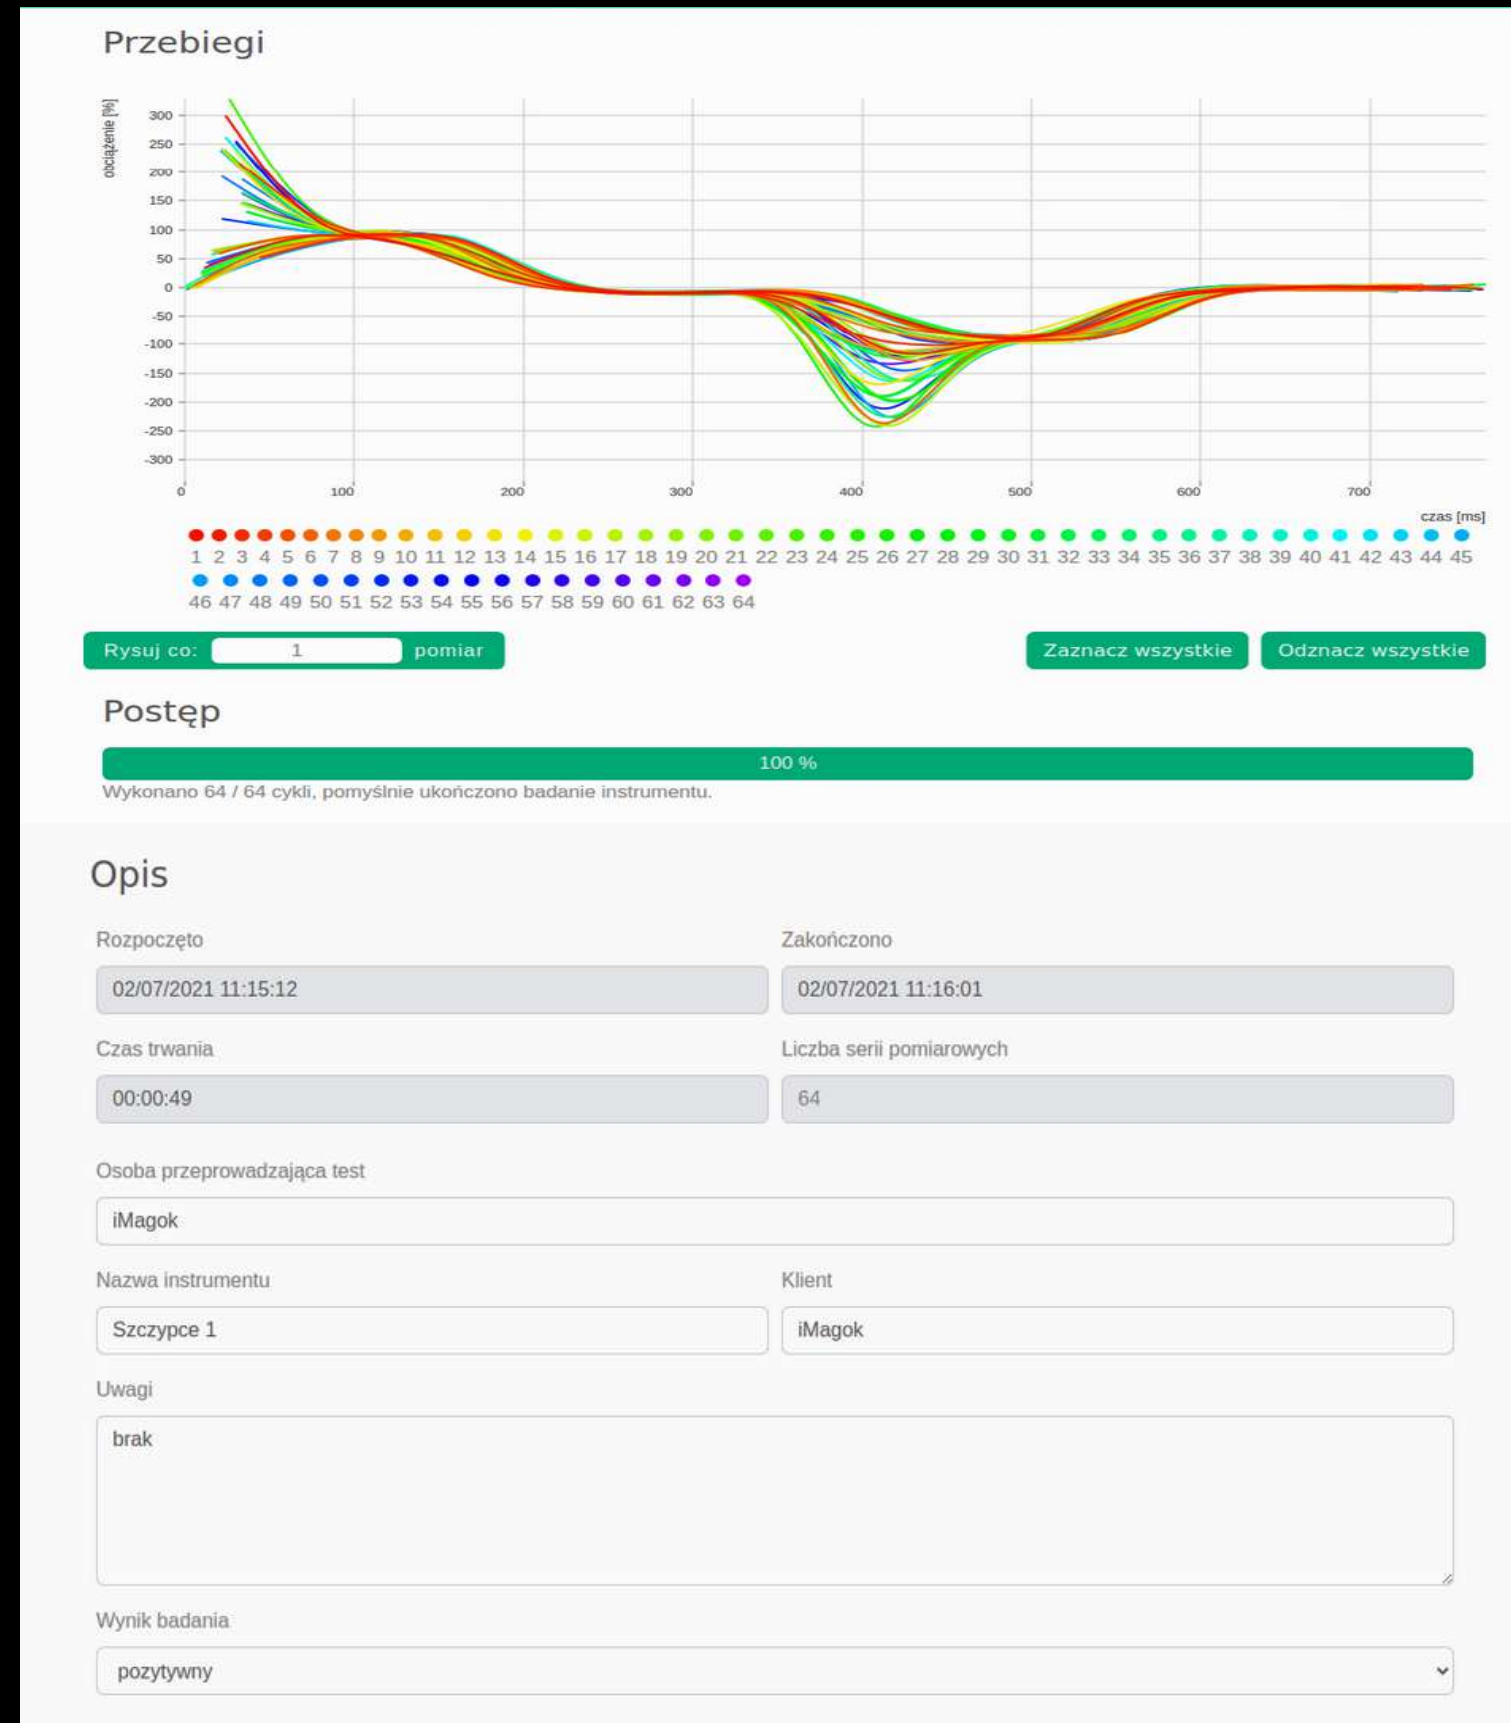

Bespoke
anomaly
detection vision
system

and more...

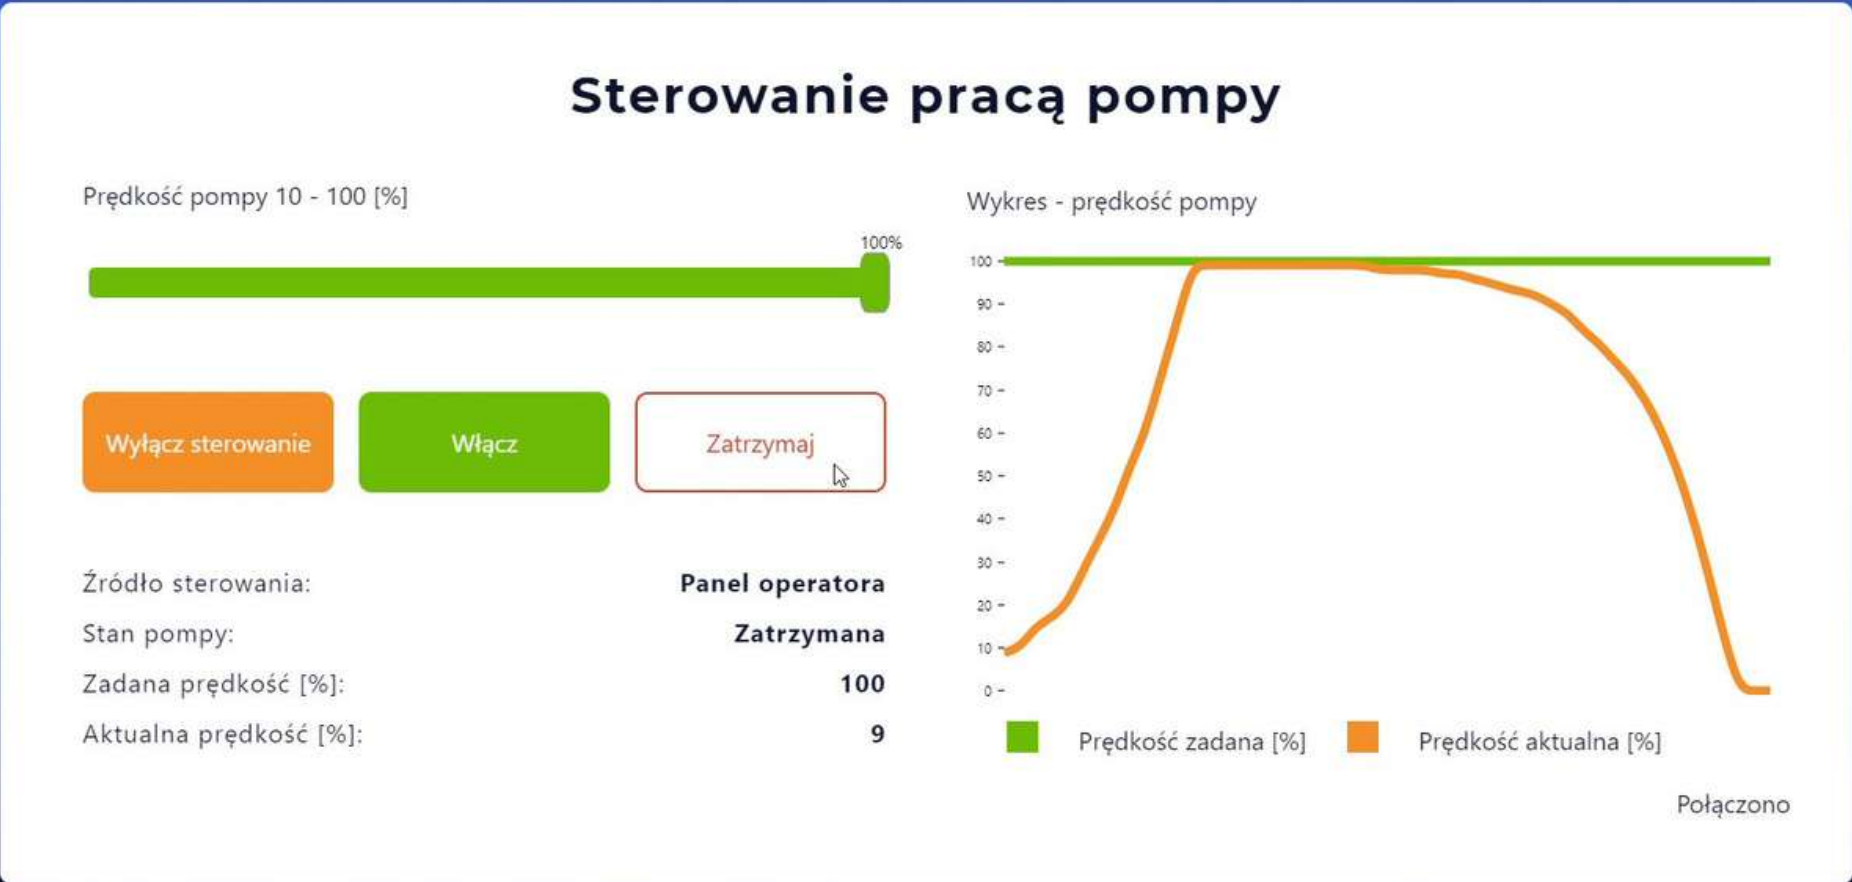

01-Loose-MES Application

02-Instrument - DIAG Application

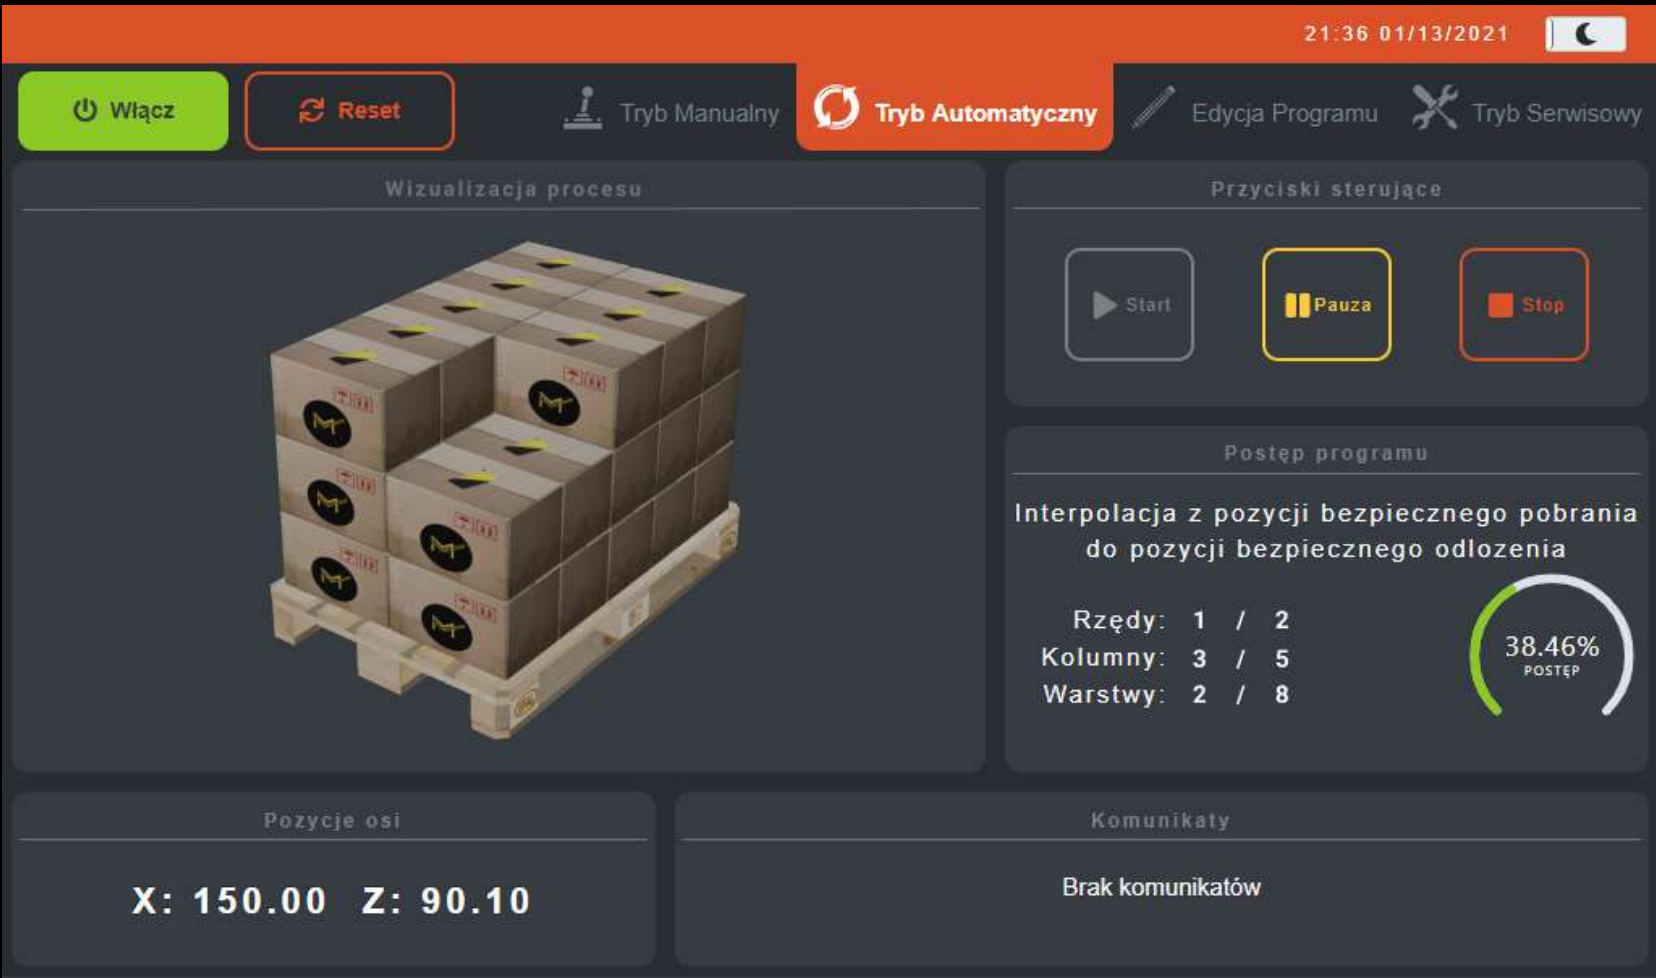

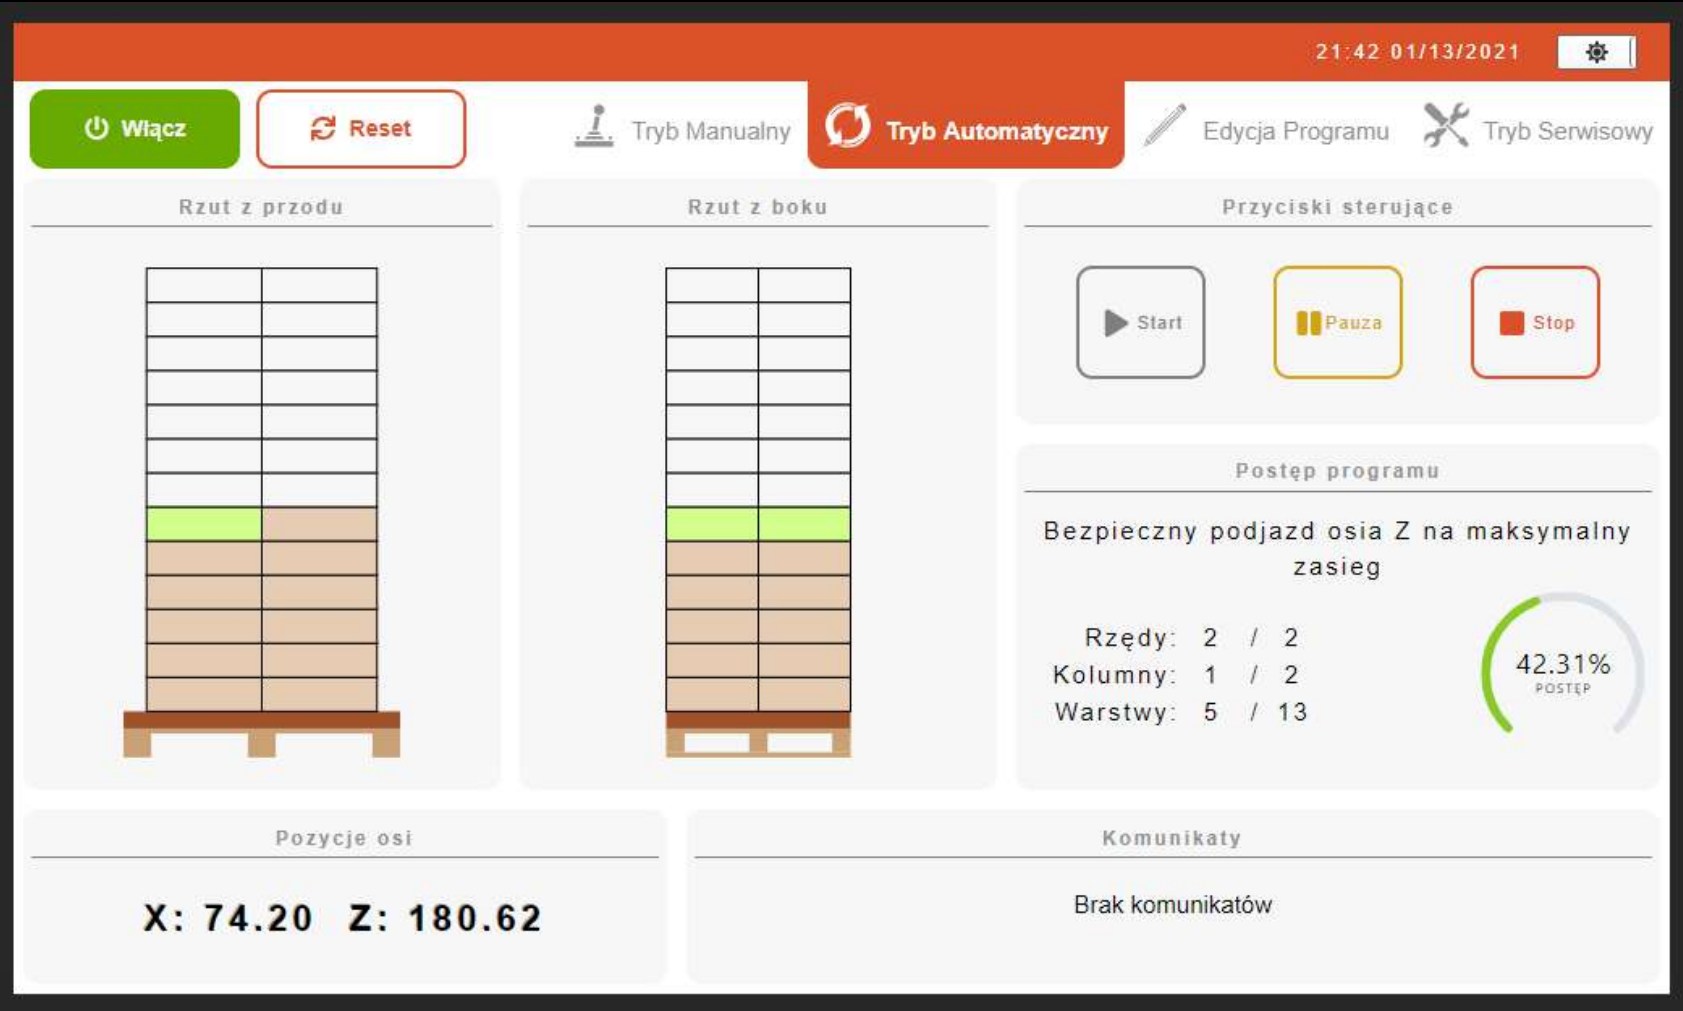

03-Wireless control of pumping station

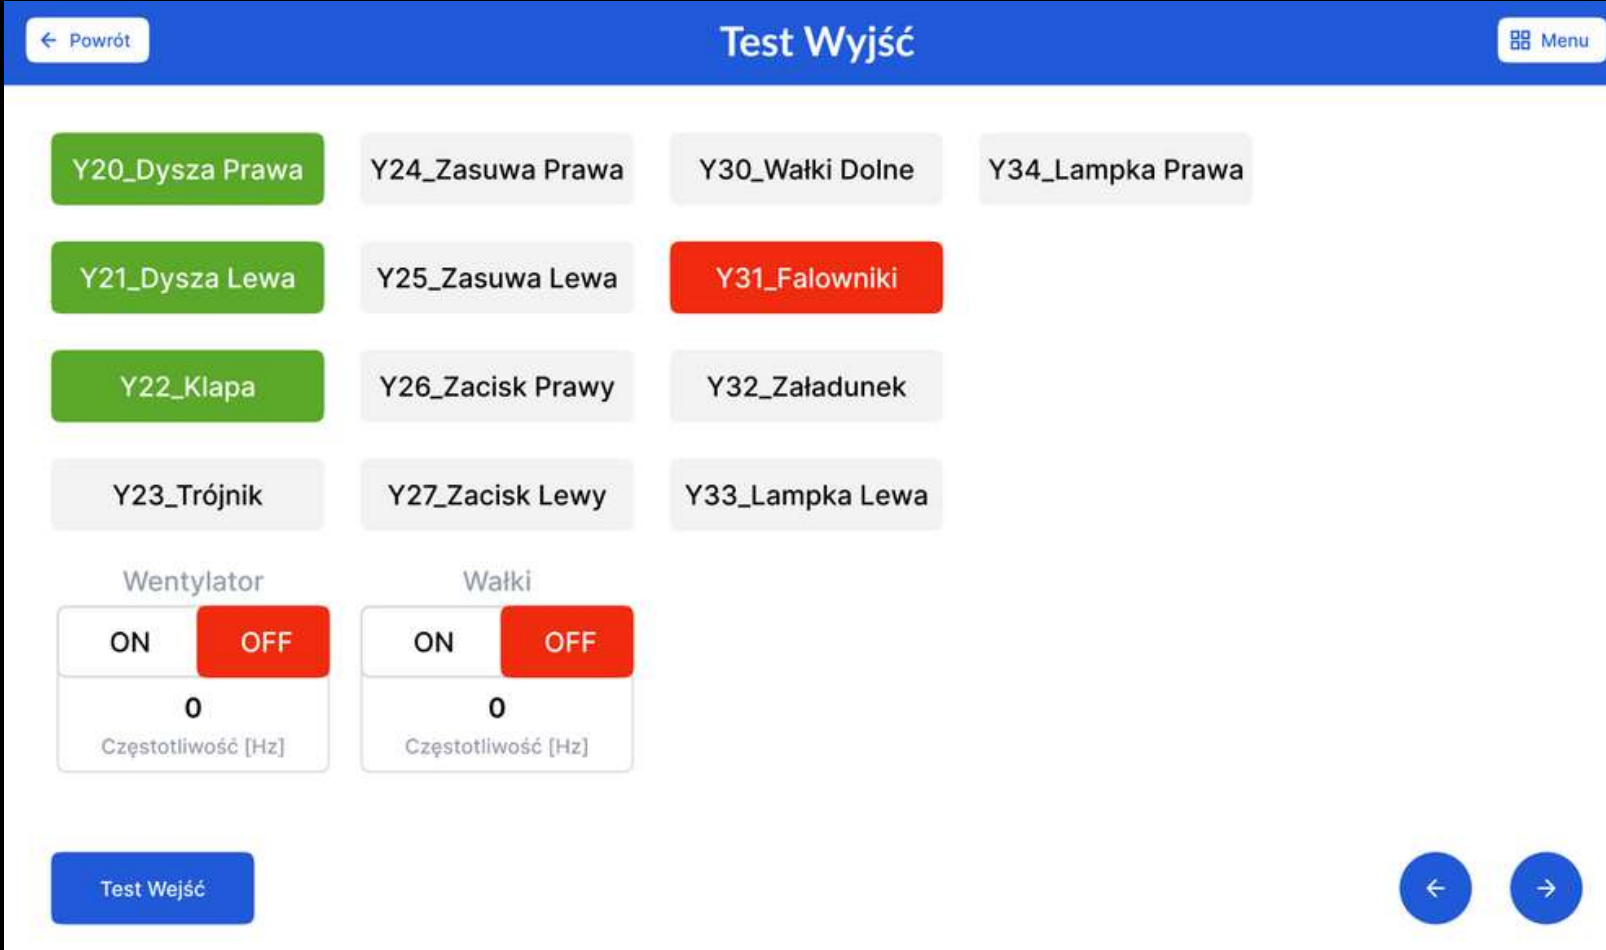

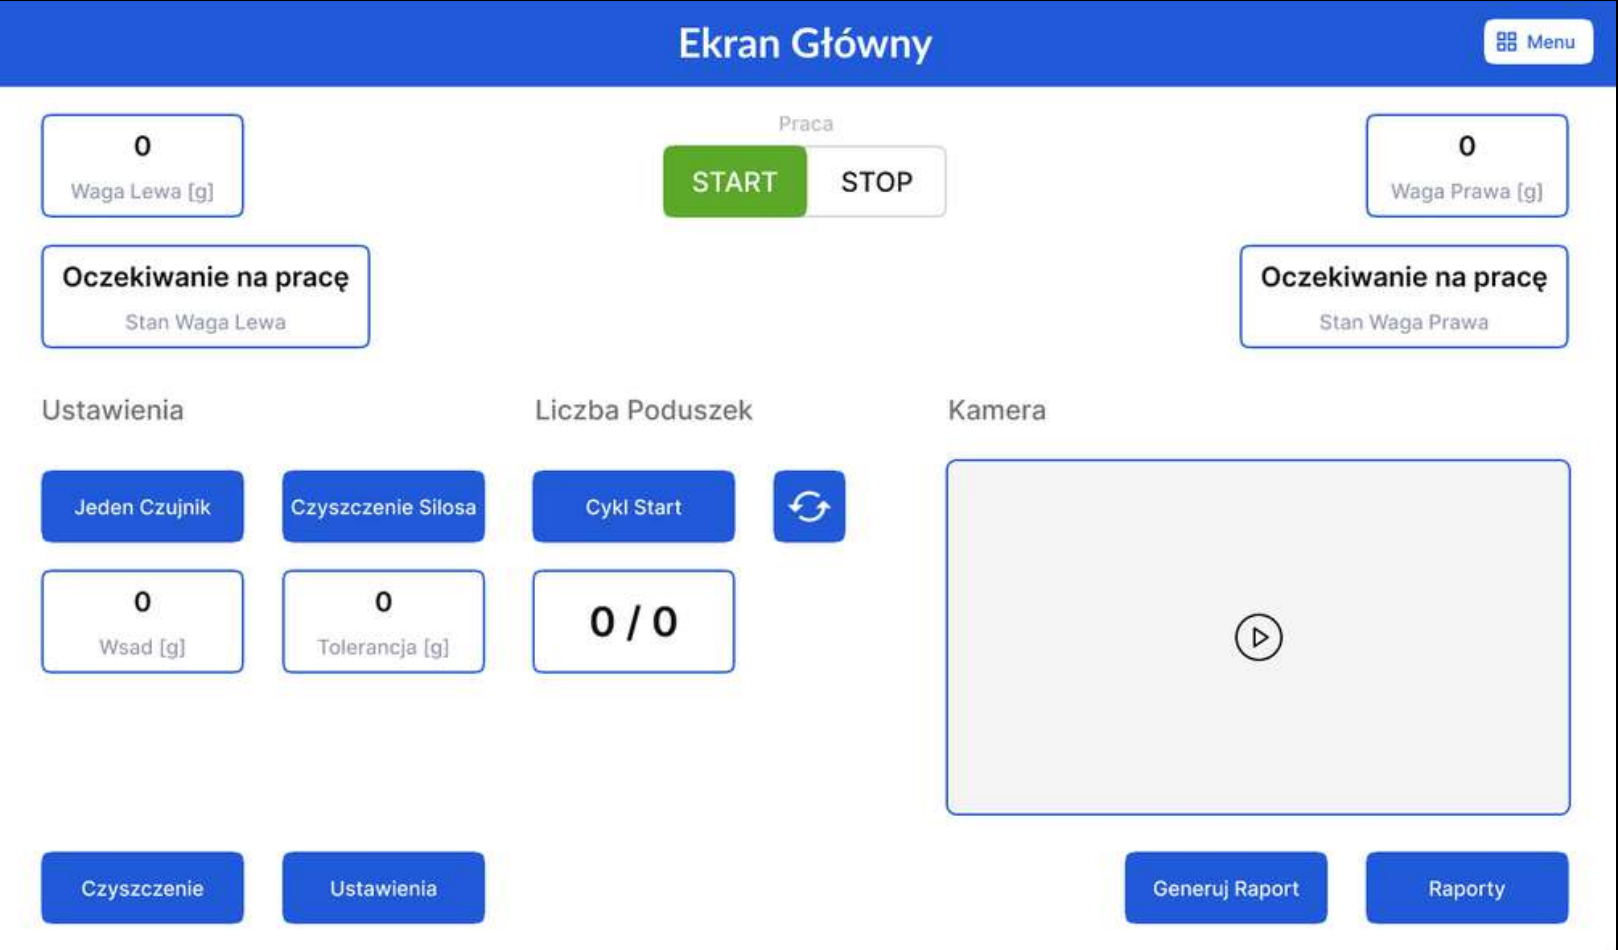

04-Electrical motor diagnostics application

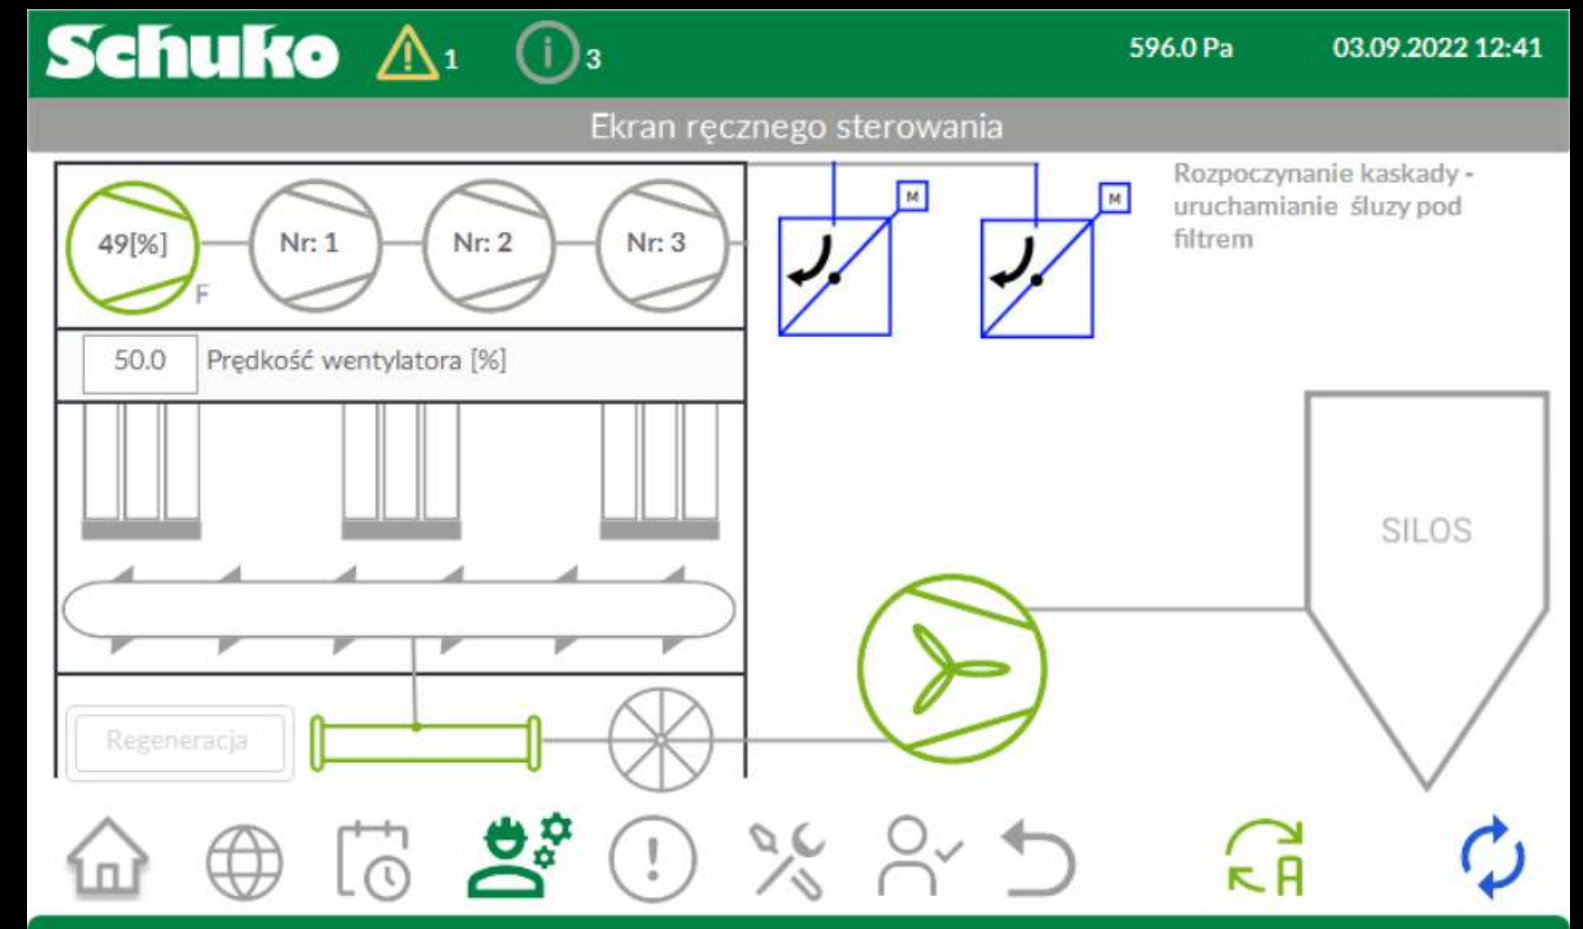

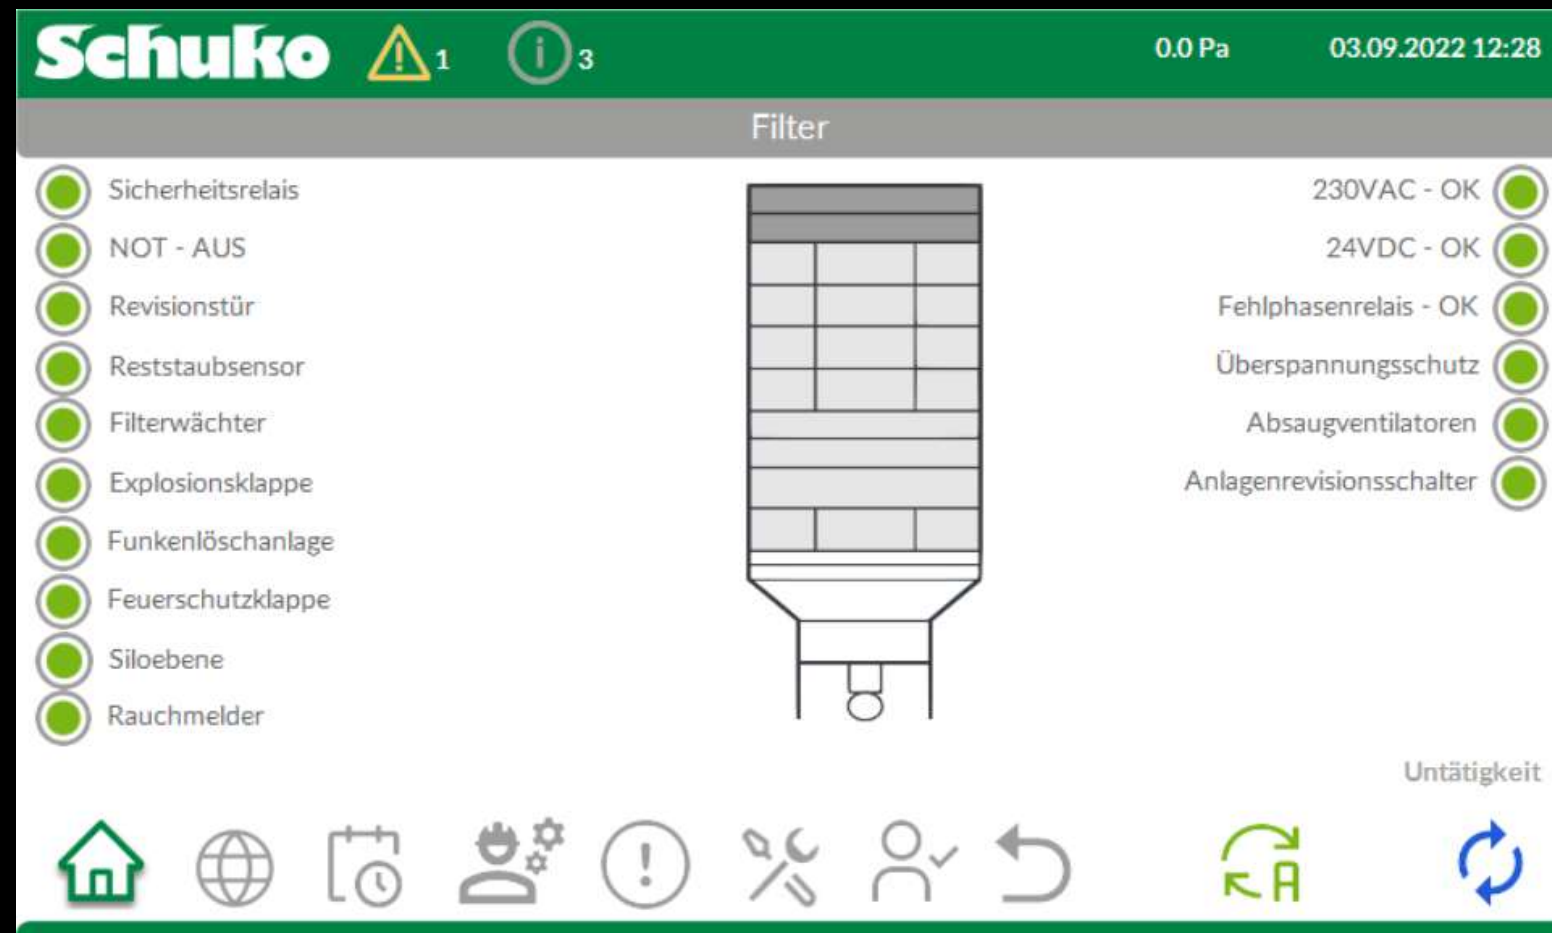

05-Cartesian palletization system

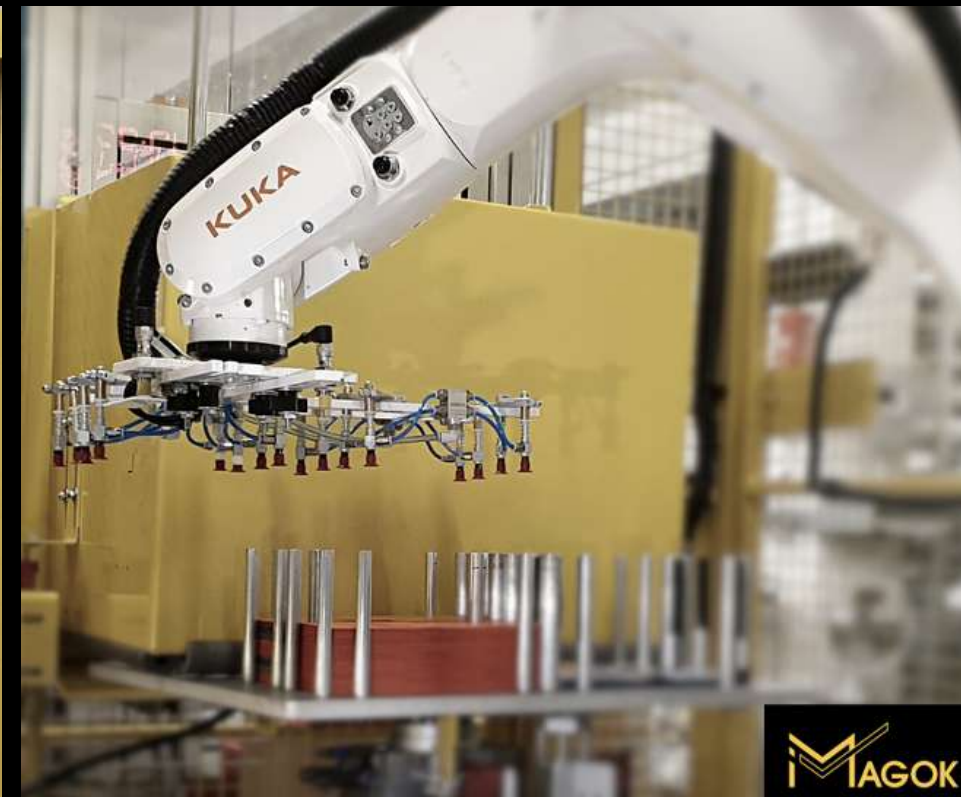

06-Pillow production line

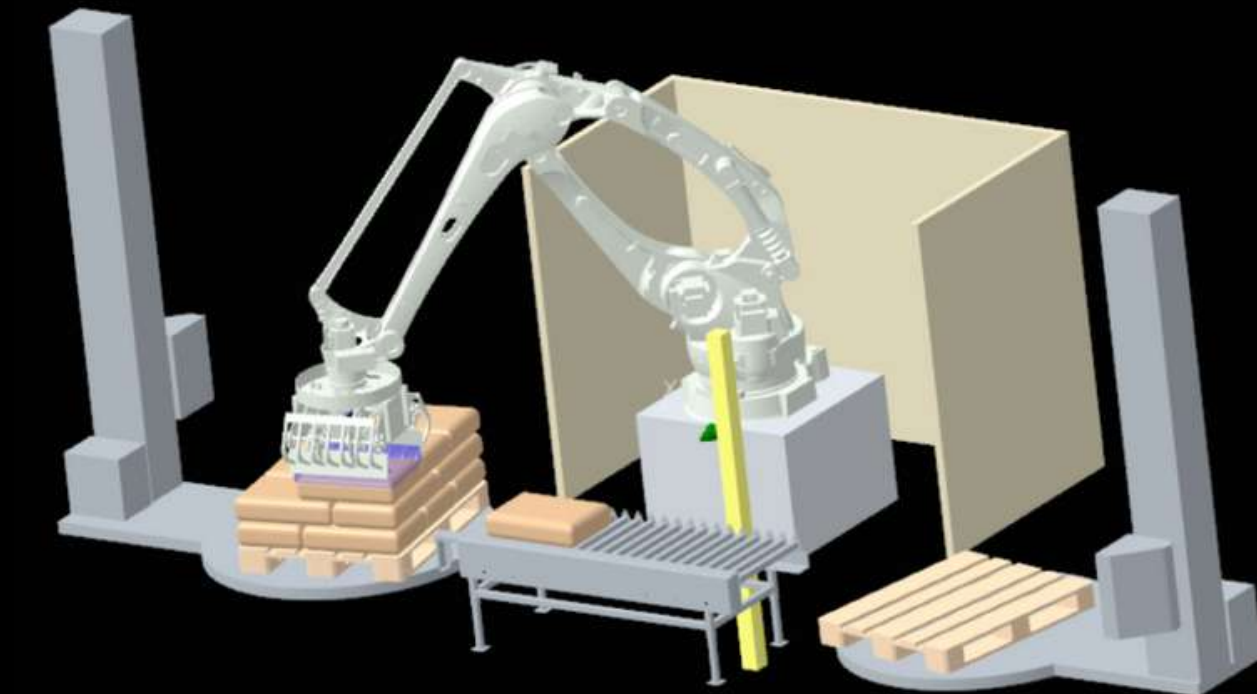

07-Extraction center control system

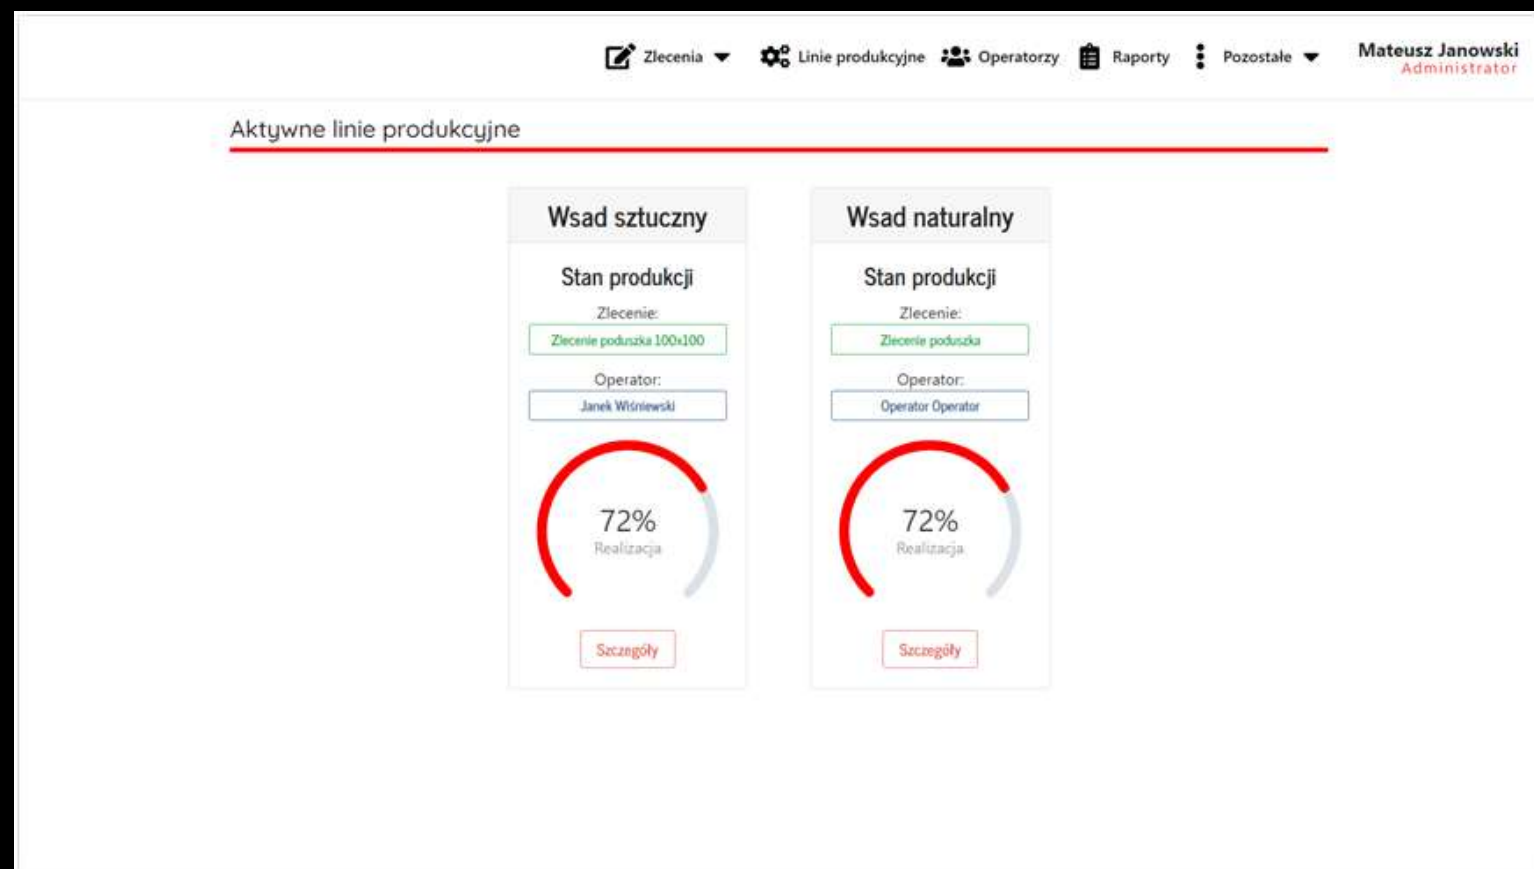

08-Robotic welding system

09-Robotic palletization

10-Pilow production line monitoring

11-Robotic painting

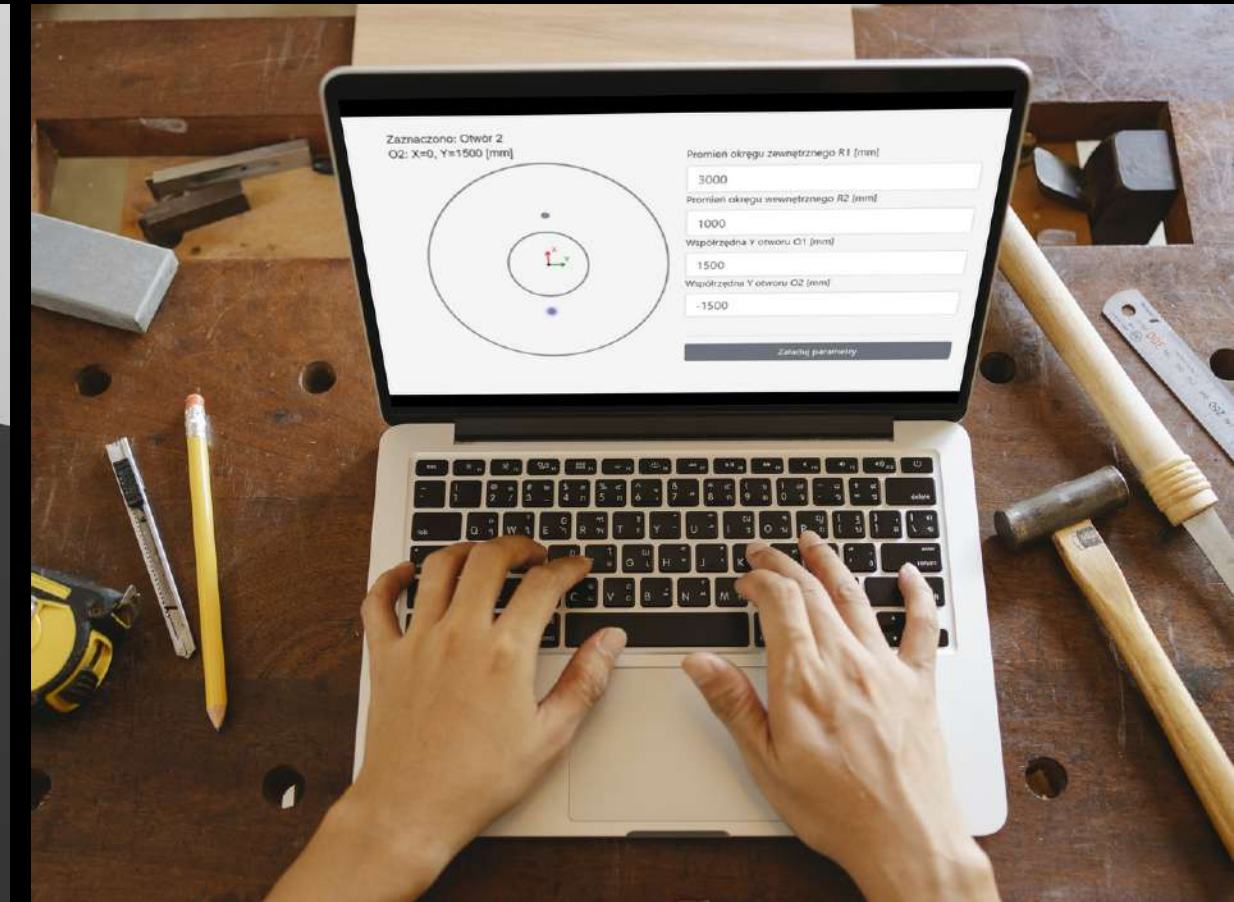

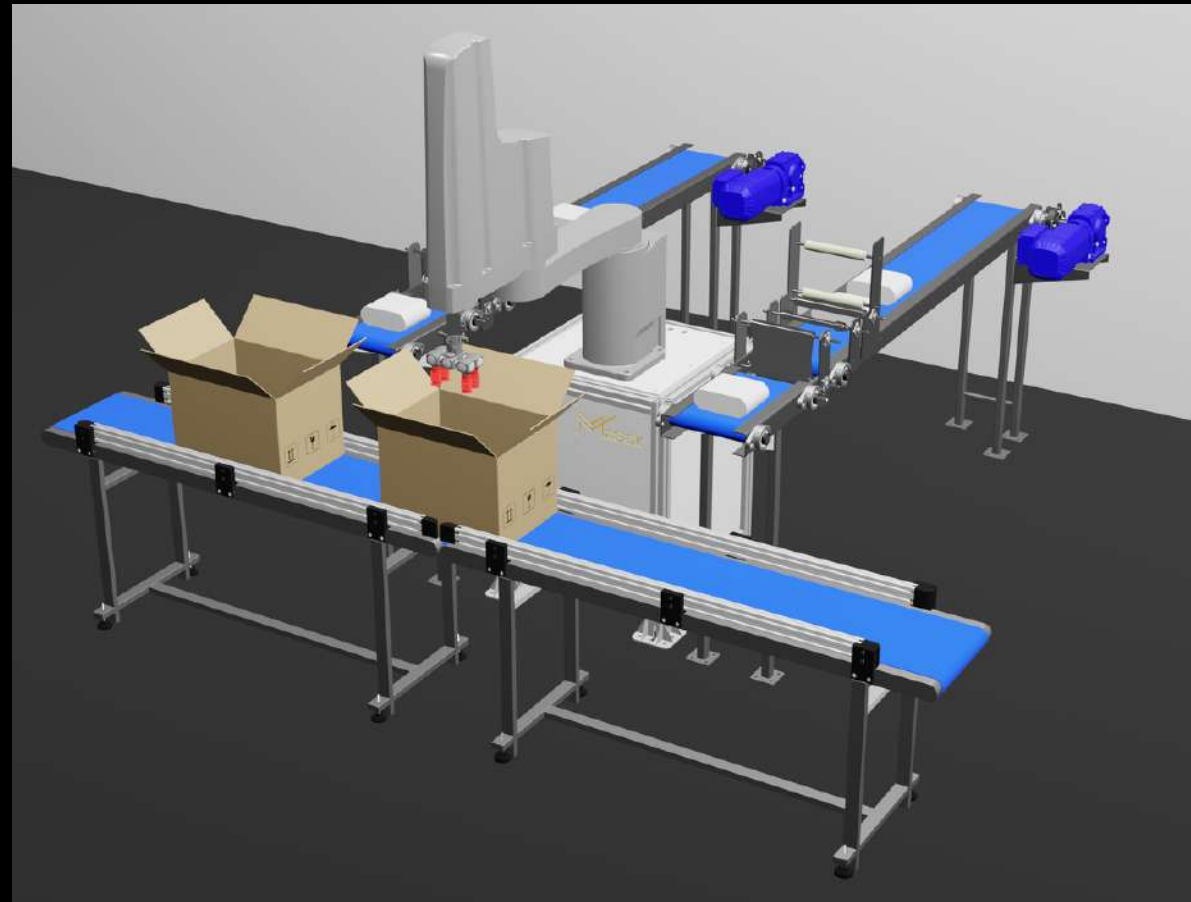

12-Robot Digital Twin

13-Bespoke anomaly detection vision system

and more...
